Message from the Chief Medical Officer – Summer 2025 Medicare Newsletter

Dear Doctors, Practitioners, Providers, FDRs, Consultants, and Delegated IPAs,

I am excited to announce that all Imperial Health entities are now NCQA Accredited for Health Plan products—including Medicare Advantage (MA-PD), Chronic Condition SNPs (C-SNP), and Dual Eligible SNPs (D-SNP). This achievement is a shared success with all of you who work tirelessly to deliver high-quality, patient-centered care.

As we continue through 2025, I want to highlight several key focus areas for clinical excellence and operational alignment:

1. Clinical Tools: Use MDCalc for Evidence-Based Care

- MDCalc tools—now posted under the Provider Calculators section of our portal—can assist you with risk scoring, clinical decision-making, and guideline-based care. These are especially valuable in managing seniors and patients with complex conditions.

2. Recapture and Document Chronic Conditions Thoughtfully

- Every chronic condition should be reviewed and documented accurately in the EHR each year. Complete, specific, and timely documentation ensures better outcomes and more precise care planning. Avoid over coding, under coding, or non-specific diagnoses.

3. Timely, Accurate Encounter Data Submission for IPAs Receiving Capitation

- Practitioners and provider groups operating under capitation agreements must submit 100% of encounter volume with greater than 99% coding accuracy. This is essential for HEDIS, STARS, and Risk Adjustment programs. Failure to meet these standards can impact Quality and Compliance performance.

4. Promote Balanced Utilization of Covered Services

- Please continue to avoid both overuse and underuse of covered services. Clinical appropriateness should always guide care decisions, supported by clear and concise documentation.

We are Here for You

- At Imperial Health, we consider you part of our extended family. We are always here to support your care delivery with tools, programs, and resources that make a difference. Whether it's clinical assistance, operational guidance, or help with member services—we are just a phone call or message away.
- These newsletters are more than just updates—they are gateways to unlocking resources that support your teams, improve patient outcomes, and elevate member satisfaction. We are grateful for your continued partnership and your commitment to excellence in caring for our members.

STARS Measure – Medication Adherence

As we approach the midpoint of 2025, the Pharmacy Services Department at Imperial wants to focus and emphasize our efforts on our members and their adherence to medications. Medication adherence is vital to the overall health and wellness of our patients. Poor medication adherence for chronic conditions often can negatively impact clinical outcomes, quality of life, and lead to higher rates of readmissions. Together, we want to create a plan to improve and achieve the greatest level of adherence.

How do you make an impact on medication adherence?

- As a reminder, our plan offers 100-day supply on most maintenance medications. Utilization of this pharmacy benefit can significantly reduce both trips to the pharmacy and cost in certain situations.
- Clearly communicate with and educate your patients – what are the medications for and why they are important to take on a regular basis.
- Involving family members and caregivers in treatment plans, especially for elderly patients.
- Save the patient money by prescribing Tier 1 and Tier 2 medications.
- You can find the Part D formulary list by going to:
 1. <https://imperialhealthplan.com>
 2. Select your state and county.
 3. Scroll down the quick links and under “Prescription Search” select the Plan Benefit Package.

You might hear from our team on a regular basis regarding your patients’ medications. Please help us by responding to our requests so that we can keep our members adherent. We invite you to reach out to us as well should you have any questions or concerns. Our team is a small but mighty group of specially trained Pharmacists, Pharmacy Technicians, and Pharmacy Concierge. We are experts in pharmacy benefits, formulary, coverage determinations, appeals, and more. We hope that in collaborating, we can help optimize the health of our members.

Immunization Updates

Flu vaccines for the 2025-2026 season will be available at all the pharmacies starting in the summer of 2025. Please encourage all your members to get vaccinated, as the flu vaccine is a safe and effective way to protect them from seasonal influenza. Other recommended vaccines for seniors are pneumonia, RSV, shingles and COVID which are all covered at a \$0 copay.

The CDC recommends the pneumococcal vaccine for adults 65 years or older, RSV vaccine for adults 60 years and older to protect from severe RSV, flu vaccine for people 65 years and older because they are at higher risk of developing serious flu complications, and the updated 2024-2025 COVID vaccine for everyone ages 6 months and older.

Notice to Providers: Pharmaceutical Information and Updates

We are committed to ensuring that you have easy access to the latest pharmaceutical information to support your practice and patient care. The following resources are available online to help you navigate our pharmacy benefit services effectively:

Part D Pharmaceutical information and updates

Pharmaceutical information and updates are available on the **Provider page** of our website (www.imperialhealthplan.com) as well as in the **provider manual**. You can access a direct link to the **Pharmacy Resources** page on the Provider page, where you will find:

- **The Formulary (PDF version):** A list of covered pharmaceuticals with restrictions and preferences (e.g., drug tiers, prior authorization requirements).
- Explanation of quantity limits, generic substitution processes, therapeutic interchange, and step therapy protocols.
- How to use pharmaceutical management procedures.
- **Drug Search Tool:** A tool to quickly locate a drug, including any associated restrictions or preferences.
- **Formulary Change Notice:** A list of drugs organized by date of change, including those that were added, deleted, or had restrictions or preferences applied.
- **Exception request:** Instructions for initiating exception requests, including required supporting documentation.

For additional questions, please contact MedImpact at 877-391-1105. Their support team is available 24 hours a day, 7 days a week.

Physician Administered Drugs (PADs) information

Prior authorization is required for all PADs included on the Prior Authorization List. The Prior Authorization List can be accessed on our website at <https://imperialhealthplan.com>. This list is regularly reviewed and updated to ensure that any changes in procedures or applicable drug recalls are communicated promptly.

Detailed instructions for submitting a prior authorization request are available in the Policies and Procedures section of this manual.

Once a request is received, it will be reviewed for medical necessity utilizing our Medical Necessity review hierarchy. A determination will then be issued via fax within the appropriate turn-around time. If you require additional information or support, the Utilization Management Department can be reached at 626-838-5100, Hours: M-F 8:00AM-5:00PM PT and 7:00AM-3:30PM PT weekends. Closed on holidays.

Pharmaceutical Updates

Our organization regularly updates pharmacy benefit information to maintain accuracy and relevance. Updates are communicated promptly, within 15 days of receiving notice.

Feedback and Reporting

To maintain the quality and accuracy of our information, we encourage you to report any inaccuracies or provide feedback on the clarity and usefulness of this information.

Please contact the **Imperial Pharmacy Department** at **(626) 788-0178** with your feedback or concerns.

- If you require a written copy of any of this information, it can be requested by calling Member Services: (800) 838-8271 (TTY: 711) October 1 - March 31: Monday - Sunday from 8:00 am - 8:00 pm and April 1 - September 30: Monday - Friday from 8:00 am - 8:00 pm.

Thank you for your continued partnership in providing high-quality care to our members.

New Medicare Coverage for HIV Prevention – PrEP Now Covered Under Part B

Effective September 30, 2024, the Centers for Medicare & Medicaid Services (CMS) issued a National Coverage Determination (NCD 210.15) for Pre-Exposure Prophylaxis (PrEP) for HIV Prevention. This NCD establishes Medicare coverage for FDA-approved antiretroviral drugs used to prevent HIV in individuals at increased risk.

As part of this determination, CMS has ruled that the cost of coverage under NCD 210.15 does not meet the significant cost threshold under 42 CFR § 422.109. As a result, Medicare Advantage (MA) plans are required to assume the costs and cover PrEP drugs under this new policy.

Key Updates for Providers:

- PrEP coverage is shifting from Medicare Part D to Medicare Part B.
- PrEP will now be a zero-dollar cost-sharing preventive service under Part B.
- MA organizations and Part D sponsors must ensure seamless access to PrEP, including necessary counseling and screenings for eligible beneficiaries.

Scope of Policy:

This policy applies to all MA organizations, Part D plan sponsors, network pharmacies, and healthcare providers involved in the administration of PrEP for HIV prevention.

Providers should be aware of this transition to ensure patients continue to receive uninterrupted access to PrEP medications and related services. If you have any questions about this update, please reach out to Imperial Pharmacy Department.

Please help us keep our member population protected and safe this summer season.

Give us a call, fax, or email if you have any questions. It is our pleasure to assist you.

Improve performance and better manage patient care with Imperial Health Plan new web-based platform

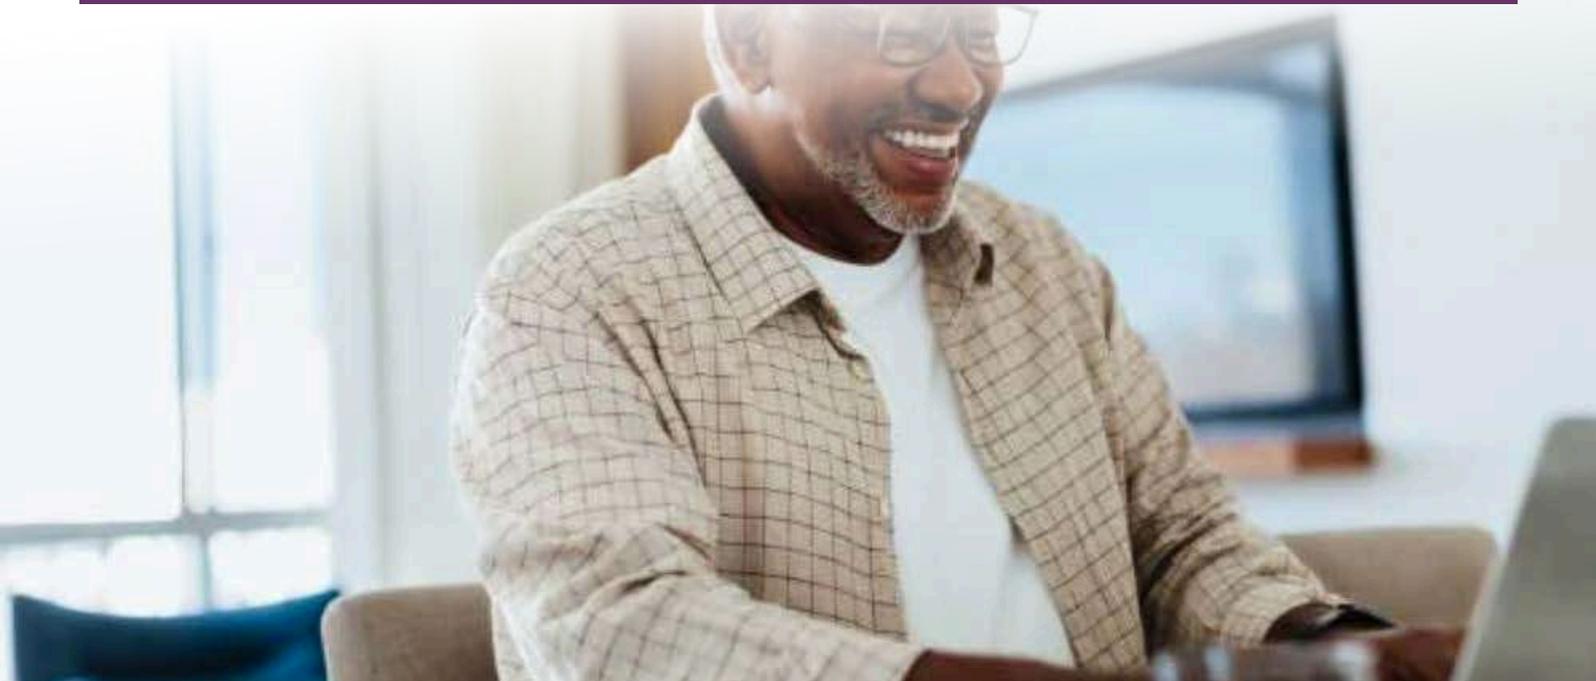

Imperial Health Plan recently made a significant investment to offer COZEVA at no cost to participating providers. COZEVA is a powerful population health and analytics platform that will allow you to better monitor and take action on performance gaps for quality and risk measures.

Advantages of Using COZEVA:

- Great tool for Providers, Medical assistants and Office staff for chart prep to Provide Patients with the most efficient care.
- Receive timely data on Quality and Risk Performance. Trend your scores over time.
- Review open care gaps and chronic conditions for your Imperial Health Plan patients. Use batching and bulk printing of face sheets to facilitate pre-visit planning.
- Close care gaps instantly by submitting attestations for measure compliance or exclusion and uploading proof-of-service documentation.
- Based on the system you use, integrate your EHR system with COZEVA and eliminate double documentation.

For more information please contact the Imperial Health Plan Quality Improvement team via email at QIM@imperialhealthholdings.com to register for Cozeva today!

Annual HEDIS® Hybrid Measure Record Collection for MY2024 is underway

In accordance with Federal and State laws and regulations and standards set forth by the National Committee for Quality Assurance (NCQA), provider groups under contract with Imperial Health are required to have health record keeping practices in place that comply with Imperial Health's standards and guidelines regarding confidentiality, availability, system of health record organization, and methods to assess the quality of health record keeping.

The Healthcare Effectiveness Data and Information Set (HEDIS®)¹ is one of the most widely used set of health care performance measures in the United States. Hybrid measures are measures in which additional information in the medical chart may be necessary to complement claims data in order to provide a full picture of the care/services provided and record compliance with a given performance measure.

Imperial Health has again contracted with Credo Health (“ChartFast”) to perform record collection for this mandated, time-sensitive, audit and compliance by your office and medical-records/HIM staff is vital to our joint success!

PLEASE RESPOND TO RECORDS REQUESTS WITHIN 3 DAYS AND BEGIN SUBMITTING REQUESTED RECORDS WITHIN 5 DAYS.

See the next page for details regarding:

- How Imperial Health Maintains Medical Record Confidentiality
- Are You Authorized to Comply with a Records Request from Imperial Health?

Medical record confidentiality:

Imperial Health strictly maintains the confidentiality of all records, and records are only accessed by authorized individuals adhering to the following guidelines:

- ▶ **Records are used only for the purpose designated in the specific request**
- ▶ **Records are kept in a safe and secure location**
- ▶ **Records are appropriately destroyed when they are no longer needed for the purpose requested**
- ▶ **Records are not further disclosed or otherwise distributed**

Medical record release:

A special authorization from your patient (our member) is **not** required prior to releasing a copy of the medical record to Imperial Health.

Title 45 Code of Federal Regulations (CFR) Part 164.506 permits disclosures to other covered entities, such as the health plan, to carry out health care operations. 45 CFR 164.501 defines health care operations to include quality assessment and improvement activities, and 45 CFR 164.504 permits disclosures to business associates under contract to perform health care operations for covered entities.

Imperial Health is a covered entity under the Health Insurance Portability and Accountability Act (HIPAA). Imperial Health secures the consent of our members for release of medical records upon enrollment. We are not asking for, nor do we want, any medical record information related to psychotherapy, HIV, substance use disorder, or developmental disabilities.

In addition, contractual agreements between Imperial Health and our participating providers contain an explicit provision that requires providers to provide member information when requested for quality review purposes.

Questions: If you or your staff have questions regarding HEDIS®, please reach out to your assigned Quality Improvement Specialist or email QIM@imperialhealthholdings.com.

Urgent authorization requests should be submitted through the Imperial Provider Portal for expedited processing. An expedited/urgent request for a determination is a request in which waiting for a decision under the standard time frame could place the member's life, health, or ability to regain maximum function in serious jeopardy.

For example:

- A serious threat to life, limb, or eyesight.
- Worsening impairment of a bodily function that threatens the body's ability to regain maximum function.
- Worsening dysfunction or damage of any bodily organ or part that threatens the body's ability to recover from the dysfunction or damage; or
- Severe pain that cannot be managed without prompt medical care.

Urgent requests need determination within 72 hours.

Practitioner Credentialing & Rights

Practitioners are notified of their right to review and correct erroneous information obtained in the credentialing or re-credentialing process. This includes information from any outside primary source (state licensing boards, malpractice insurance carriers).

The right to review does not extend to references or recommendations or other information is peer review protected or if disclosure is prohibited by law. Before a decision is made, they may also ascertain the status of their application or reapplication at any time by contacting the Credentials Department at:

Email: credentialingadmin@imperialhealthholdings.com

Practitioners receive notification of their rights by IMAS during the verification process or the appeal process if they do not meet their criteria after receiving a denial or termination of the network during the credentialing/recredentialing process.

If credentialing information obtained from other sources varies from that provided by the practitioner, the credential coordinator will notify the practitioner in writing for their response within ten working days.

The Credentialing Coordinator will make three attempts to collect the corrected information from the practitioner. Telephone, fax, email or letter are all acceptable forms of communication. The credentialing coordinator will advise the practitioner of acceptable formats when submitting corrected information.

Corrected information is accepted by the Credentialing Coordinator and documented in the credentialing system. The practitioner's application is pended until a decision is made by the Credentialing Committee.

The Credentialing Coordinator will date stamp receipt of corrected information and this information is kept in the practitioner's credential file maintained within the department. If the Credentialing Coordinator is unable to obtain the requested information, terminated practitioners can correct discrepant information under the IMAS appeal policy. Practitioners are notified that appeals must be submitted within (30) days.

Practitioners are notified of these rights in the Provider Manual and company website.
